Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Monday 20 Sep 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Fine for most. Turning very windy in the northwest.

This Evening and Tonight:
Light rain across southeast England dying out. Cloud and patchy light rain or drizzle across Scotland and Northern Ireland will move into northern England and Wales. Elsewhere, clear skies allowing it to turn chilly with a few fog patches forming.

Tuesday:
Early fog patches clearing then most parts dry with broken cloud and warm sunny spells. Turning cloudy and windy in the far northwest with coastal gales and some light rain.

Outlook for Wednesday to Friday:
Periods of rain, locally heavy, affecting many northern and northwestern areas. Mostly dry, bright and feeling rather warm in the south. Strong winds across the north, especially Wednesday and Thursday.
